# Copilot

🕒 *Total Time: 4 hours*

📖 *Total Number of Lessons: 78*

<i>Course Title</i>	<i>Number of Lessons</i>	<i>Course Length</i>	<i>Course Description</i>
<b>The Fundamentals of Copilot</b>	9	35	In this course, The Fundamentals of Microsoft Copilot, you begin your journey into the world of Microsoft's generative AI (Gen-AI) solution called Microsoft Copilot. You will learn how to "converse" with Copilot and begin using this new tool to help you find, create, design and more.
<b>Copilot in Edge</b>	6	18	In this course, Copilot in Edge, you will learn how to work with Microsoft Copilot through the Edge browser.
<b>Copilot for Microsoft 365</b>	30	91	In this course, Copilot for Microsoft 365, you will learn the basics and beyond with Microsoft's virtual AI assistant in Word, Excel, PowerPoint, Outlook, and OneNote.
<b>Copilot for Dynamics 365</b>	15	37	In this course, Copilot for Dynamics 365, we focus on two areas of Dynamics 365 that can truly be enhanced by the use of Copilot: Sales and Customer Service. Learn a variety of new approaches towards engaging with leads and opportunities through the use of Copilot.
<b>Copilot Prompts for Your Job Roles</b>	18	62	In this course, Copilot Prompts for Your Job Role, we dive into the use of Copilot prompts, the Notebook, and individual job roles. We hope this course will help you to excel in your job role using Copilot.

# Teams

🕒 Total Time: 15 hours

📖 Total Number of Lessons: 343

Course Title	Number of Lessons	Course Length	Course Description
<b>New Teams</b>			
<b>Accessing and Navigating Teams</b>	15	28	In this course, Accessing and Navigating Teams, we will review various methods to access and navigate the Teams application. In addition, you will learn how to create, join and work with different Teams.
<b>Utilizing Teams Channels</b>	20	75	In this course, Utilizing Teams Channels, you will learn how to work with and within Teams Channels.
<b>Mastering Teams Chat</b>	12	32	In this course, Mastering Teams Chat, we explore how to use Teams Chat and how to work with the various features of chat, like sending files, praise, and more.
<b>Managing Your Teams Experience</b>	10	24	In this course, Managing Your Teams Experience, we will explore the Status Messages feature and the Notification settings.
<b>Mastering Copilot and Apps</b>	8	25	In this course, Mastering Copilot and Apps, we will review a few ways Copilot can improve your Teams experience, along with other apps like OneDrive.
<b>Teams Meetings</b>	10	31	In this course, Teams Meetings, we will explore the basics of engaging with your team through the meeting feature in Teams. Learn how to schedule a meeting, join a meeting, configure meeting options and more.
<b>Mastering Teams Meetings</b>	30	86	In this course, Mastering Teams Meetings, we will focus exclusively on all the nitty gritty and fun parts to a Teams meeting. You will learn how to adjust audio and video, use green screens and avatars, work with breakout rooms, and record meetings. You'll also learn how to present, share screens, spotlight others, share your screen, share files and much more.

# Teams

🕒 Total Time: 15 hours

📖 Total Number of Lessons: 343

Course Title	Number of Lessons	Course Length	Course Description
<b>Teams Classic</b>			
<b>Microsoft Teams</b>	85	245	In this course, Microsoft Teams, you will learn all about Microsoft's chat-based workspace in Office 365 that brings together people, conversations and content—along with the tools that teams need—so they can easily collaborate to achieve more. With this course learn all you need to access, navigate, and manage this powerful application.
<b>Teams 101</b>	8	43	In this course, Teams 101, we will explore the primary aspects of this modern workplace solution from Microsoft.
<b>Teams Calling</b>	48	76	This course, Teams Calling, focuses on the telephony aspects of Microsoft Teams and provides an in-depth look at placing and receiving calls, controls, voicemail option and teams calling delegates.
<b>Teams Essentials</b>	45	91	This course, Teams Essentials, focuses on the primary aspects of this modern workplace solution from Microsoft. Note: This course is an update to the beginner level content in our full Microsoft Teams course.
<b>Teams Mobile</b>	12	29	In this course, Teams Mobile, we will explore the Microsoft Teams Mobile App. You will learn how to perform tasks through your mobile app that you would perform through the online or desktop app. These include chat messaging, availability, notifications, managing documents, making audio calls, and making video calls.
<b>Mastering Teams Meetings</b>	40	120	In this course, Mastering Teams Meetings, we will focus exclusively on all the nitty gritty and fun parts to a Teams meeting. You will learn how to create, schedule and join meetings. You will learn how to invite others to meetings, engage with others in a meeting, use green screens and avatars, work with breakout rooms, and record meetings. You'll also learn how to present, share screens, spotlight others, share your screen, share files and much more.

# Office 365 (Browser/Cloud Apps)

🕒 Total Time: 55 hours

📖 Total Number of Lessons: 796

Course Title	Number of Lessons	Course Length	Course Description
<b>Microsoft 365: Office Online</b>	67	341	In this course, Microsoft 365: Office Online, you'll learn all about the Office Online applications. If you're an Office 365 subscriber or have a Microsoft account, you have access to the Office Online applications, which include Word, Excel, PowerPoint, and OneNote. These applications allow you to access your files anywhere online--all you need is access to the Internet. By the end of this course, you'll be able to use Microsoft Office Online's programs and powerful features with confidence.
<b>SharePoint Online Essentials</b>	44	192	In this course, SharePoint Online Essentials, you will learn the basics in getting started with SharePoint Online. First, you'll discover how to setup your SharePoint profile. Next, you'll explore how to use the News Post, Document Libraries, Lists and Quick Links to better manage tasks and collaborate around information.
<b>SharePoint Online Power Users</b>	47	213	In this course, SharePoint Online Power Users, you will move to the next level with SharePoint Online. You will learn more about working with alerts, lists, libraries and pages to help you improve your understanding of Microsoft's document workflow and collaboration solution in Microsoft 365.
<b>SharePoint Online Pro</b>	47	232	In this course, SharePoint Online Pro, you will learn about the more advanced features of SharePoint Online. We will work through working with SharePoint sites, user permissions, content types and retention policies. When you're finished with the course, you'll have the knowledge you need to be a SharePoint Online professional.
<b>Outlook (on the Web)  Mail</b>	25	73	In this course, Outlook (on the Web)   Mail, business professionals are introduced to the Microsoft 365 Outlook Online (OWA) email solution. Learn how to send and organize email, and more.
<b>Outlook (on the Web)  Calendar</b>	9	33	In this course, Outlook (on the Web)   Calendar, you will learn how to work with the Office 365 Calendar feature found in the App Launcher. Subjects covered include adding events and meetings, sharing calendars and more.
<b>Outlook (on the Web)  People</b>	8	25	In this course, Outlook (on the Web)   People, you will learn how to use the People feature found in the app launcher. Subjects include creating/editing contacts, importing/exporting contacts, group creation and more.
<b>Outlook (on the Web)  Files</b>	5	9	In this course, Outlook (on the Web)   Files, you will learn how to use the Files feature built into Outlook online.
<b>Microsoft Dynamics 365</b>	30	175	In this course, Introduction to Microsoft Dynamics 365, we will review the various modules including Sales, Marketing and more.
<b>OneDrive</b>	28	99	In this course, OneDrive, you'll learn how to store, share, and sync work files in the cloud. First, you will learn different ways to create, use and share files. Next you will discover how to manage and collaborate/co-author documents. Finally, you will learn how to use the OneDrive app on your PC.

# Office 365 (Browser/Cloud Apps)

🕒 Total Time: 55 hours

📖 Total Number of Lessons: 796

Course Title	Number of Lessons	Course Length	Course Description
<b>OneDrive Mobile</b>	12	29	In this course, OneDrive Mobile, you'll learn how to install, navigate and work with OneDrive Mobile. This will include creating, organizing, opening, sorting, restoring, sharing, and/or uploading files.
<b>PowerApps</b>	20	75	In this course, PowerApps, you will learn how to build business apps easily. First you will learn the basics of PowerApps including data connections and the user interface. Next you will learn how to create an app from Excel in OneDrive. Finally, you will learn how to create an app from SharePoint.
<b>Model-Driven Power Apps</b>	10	42	In this course, Model-Driven Power Apps, the instructor focuses on a model-driven app design that focuses on adding components like forms, views, charts and dashboards. Power Apps is Microsoft's platform for building no-code or low-code applications. The focus of this course is model-driven, or Dataverse, apps. Together we'll build an asset tracking app from scratch—everything from setting up data to customizing the user interface.
<b>Delve</b>	5	34	In this course, Delve, you will learn about Delve features. Topics covered include how to work with the content card, how to make authoring easy, and tips on searching for content and people.
<b>Sway</b>	19	63	In this course, Sway, you will learn about interactive ways to give presentations, reports, and tell stories. First you will learn the basics of navigating the Sway interface and creating your first 'sway'. Then you will learn about adding, emphasizing, and deleting content cards. Finally, you'll learn about formatting the appearance, sharing, accessibility and advanced settings.
<b>Planner</b>	33	138	In this course, Planner (2020), you will learn about Microsoft's solution to help you organize teamwork through Office 365. This course will give you the necessary understanding of Microsoft Planner in order to efficiently organize people and tasks.
<b>Project Online Essentials</b>	25	109	In this course, Project Online Essentials, you will learn how to work with Microsoft's powerful online project management solution. You will learn how to navigate the interface, add and manage tasks and progress, assign resources to projects and much more.
<b>Project Online Power Users</b>	14	91	In this course, Project Online Power Users, we will help you take your knowledge of Project Online to the next level. You will learn how to work with other tools like SharePoint when connecting in with Project Online. You will also work with Project Web Access (PWA) Settings.
<b>Office 365 Administration (for the Non-IT Admin)</b>	13	86	In this course, Office 365 Administration (for the Non-IT Admin), you will learn how to navigate and manage administration through the Office 365 admin console. We will walk you through all the different administration features in the main console and then review additional admin centers (Exchange, etc.) for deeper administration. Finally, you will learn the basics of PowerShell and remote connections.
<b>Office 365 Groups</b>	15	32	In this course, Office 365 Groups, you will learn how to use the Groups feature to help you communicate and collaborate better. You will learn how to create groups, add members, editing settings and more.
<b>Office 365: Stream</b>	30	124	In this course, Office 365: Stream, you will learn about Microsoft's video sharing solution built-in to Office 365. First, we will review the purpose and navigation aspects of Stream. Then we will cover how to discover, create and manage content. Finally, we will review intelligent features and integration options.

# Office 365 (Browser/Cloud Apps)

🕒 Total Time: 55 hours

📖 Total Number of Lessons: 796

Course Title	Number of Lessons	Course Length	Course Description
<b>Skype for Business</b>	13	67	In this course, Skype for Business, you will learn how Skype can help with business communication (audio/video calls, conferencing, IM/presence and more). Note: End of Life (July 2021)
<b>Multifactor Authentication</b>	4	25	In this course, Multi-factor Authentication, you will learn the value of Microsoft's two-factor authentication. Learn more about the solution in general, and the end-user aspects of it in this course.
<b>Flow</b>	15	40	In this course, Flow, you will learn how to use the new Flow tools to improve automation. First, you will learn how to navigate Flow. Then you will learn about connectors and templates and building a custom flow. Finally, you will learn more advanced aspects of flow creation and troubleshooting.
<b>Power Automate</b>	14	78	In this course, Power Automate, you will learn how to create and improve automation. You'll learn how to setup triggers, conditions and actions with existing templates or through custom creation.
<b>Office 365 Forms</b>	27	116	In this course, Office 365 Forms, you'll learn how to create easy to use online forms. First, you will learn form basics to get you started with Forms. Then you will learn how to create quizzes. Next, you will learn how to share and review forms. Finally, you will learn how to use branching logic forms and how to add forms to SharePoint and PowerPoint.
<b>Yammer</b>	28	108	In this course, Yammer (2020), you will learn how to work with Office 365's solution for company-wide communication. First, you will learn the basics of navigating Yammer. Then you'll learn more advanced techniques and how to work with Yammer groups. Finally, you'll learn how to share content in Yammer. You'll be a Yammer "expert" in no time!
<b>Microsoft Bookings</b>	16	70	In this course, Microsoft Bookings, you will learn about the M365 online and mobile app for small businesses that provide services to customers on an appointment basis. Subjects include creating a bookings calendar, adding staff and services, creating bookings and more.
<b>Microsoft To Do</b>	15	31	In this course, Microsoft To Do, you will learn how to use the To Do feature found in the app launcher. Subjects include creating and modifying tasks. In addition, you will learn how to sort, filter and delete tasks.
<b>Power BI</b>	72	253	In this course, Office 365: Power BI, you will gain a well-rounded understanding of the capabilities within Power BI. First you will learn how to navigate the Power BI dashboard to get started. Then you will work on getting data, modifying, visualizing and exploring data. Finally, you will move into enhanced Power BI options like 'What If' and more.
<b>Project for the Web</b>	41	162	In this course, Project for the Web (aka Project 365, formerly Project Online), we introduce you to the latest cloud-based version of Project tools from Microsoft.
<b>Microsoft Loop</b>	18	55	In this course, Microsoft Loop, you will learn how to use the online collaboration platform that is designed to bring together teams, content and tasks across your tools and devices.
<b>Clipchamp</b>	24	62	In this course, Clipchamp, you will learn how to use the built-in M365 video editing and production tool so that you can easily create polished and professional looking videos.

# Microsoft 365 Apps

🕒 Total Time: 56 ½ hours

📖 Total Number of Lessons: 857

Course Title	Number of Lessons	Course Length	Course Description
<b>Word 365 Essentials</b>	62	322	In this course, Word 365 Essentials, you will learn foundational knowledge of the Word interface and settings. First, you will learn how to create and navigate through a document. Next, you will discover how to work with text, tables and lists. Finally, you will explore how to insert and manipulate graphic elements. When you're finished with this course, you will have the skills needed to begin creating your own professional documents (and begin preparation for the Microsoft Office exams).
<b>Word 365 Power Users</b>	61	330	In this course, Word 365 Power Users, you will take your Word knowledge to the next level. First, you will learn how to create and modify lists. Next, you will learn how to work with illustrations, charts and text boxes. Then you will learn about Styles, mail merges, templates, drawing tools and document inspection. Finally, you will learn about accessibility features and proofing tools. When you're finished with this course, you will have the skills needed to take your professional documents to the next level (and continue preparation for the Microsoft Office exams).
<b>Word 365 Pro</b>	51	245	In this course, Word 365 Power Users, you will take your Word knowledge to the next level. First, you will learn how to customize options and views for documents. Next, you will learn about document collaboration, accessibility and the management of document changes. Finally, you will learn about reference markers and advanced references. When you're finished with this course, you will have the skills needed to take your professional documents to the next level (and continue preparation for the Microsoft Office exams).
<b>Excel 365 Essentials</b>	52	152	In this course, Excel 365 Essentials, you will learn foundational knowledge of the Excel interface and settings. First, you will learn how to work with the Ribbon interface and Backstage View. Next, you will discover how to work with worksheets, cells, columns and rows. Finally, you will explore how to use formatting and Auto options, as well as how to save your file. When you're finished with this course, you will have the skills needed to begin creating your own professional spreadsheets (and begin preparation for the Microsoft Office exams).
<b>Excel 365 Power Users</b>	54	220	In this course, Excel 365 Power Users, you will take your Excel knowledge to the next level. First, you will learn how to format cells with borders, styles, shapes and more. Next, you'll learn how to work with workbooks, worksheets and data. Then you'll learn more about printing workbooks (in whole or parts). Finally, you'll learn about tables and a few advanced functions. When you're finished with this course, you will have the skills to format and manage more advanced spreadsheets (and continue preparation for the Microsoft Office exams).
<b>Excel 365 Pro</b>	83	357	In this course, Excel 365 Pro, you will take your Excel knowledge to the ultimate level. First, you will learn how to format and work with data. Then you'll learn about queries, text/logical/statistical and other functions. Finally, you'll learn conditional formatting, charts, pivot tables, macros and form controls. When you're finished with this course, you will have the skills needed to feel fully complete in creating professional spreadsheets (and complete preparation for the Office exams).
<b>PowerPoint 365 Essentials</b>	46	197	In this course, PowerPoint 365 Essentials, you will learn foundational knowledge of the PowerPoint interface and settings. First, you will learn how to navigate through a presentation using the Ribbon and Backstage View. Next, you will discover how to create presentations and work with slides, add text and use pictures. Finally, you will prepare to run a presentation. When you're finished with this course, you will have the skills needed to begin creating your own professional slide presentations (and begin preparation for the Microsoft Office exams).
<b>PowerPoint 365 Power Users</b>	47	207	In this course, PowerPoint 365 Power Users, you will take your PowerPoint knowledge to the next level. First, you will learn how to work with text, shapes, images and objects. Next, you will learn how to insert and format tables and charts. Finally, you will learn about printing presentations, creating custom slide shows and animations. When you're finished with this course, you will have the skills needed to create more advanced presentations (and continue preparation for the Microsoft Office exams).

# Microsoft 365 Apps

🕒 Total Time: 56 ½ hours

📖 Total Number of Lessons: 857

Course Title	Number of Lessons	Course Length	Course Description
<b>PowerPoint 365 Pro</b>	39	205	In this course, PowerPoint 365 Pro, you will take your PowerPoint knowledge to the ultimate level. First, you will learn how to work with document outlines and use morph transitions. Next, you will learn how to work with slide masters, SmartArt graphics and media. Finally, you will learn how to combine presentations, inspect and review a presentation and deliver your presentation to an audience. When you're finished with this course, you will have the skills needed to create, polish and deliver professional presentations (and complete preparation for the Microsoft Office exams).
<b>Outlook 365 Essentials</b>	64	196	In this course, Outlook 365 Essentials, you will learn foundational knowledge of the Outlook interface and settings. First, you will learn how to navigate the Outlook interface. Then you'll learn how to create, format, organize and manage messages. Finally, you'll learn how to create appointments, meetings, events, tasks, and notes. When you're finished with this course, you will have the skills needed to begin using e-mail in a business environment (and begin preparation for the Microsoft Office exams).
<b>Outlook 365 Power Users</b>	27	77	In this course, Outlook 365 Power Users, you will take your Outlook knowledge to the next level. First, you'll learn how to manage and organize calendars and contacts. You'll also learn how to print Outlook items, customize Outlook settings and perform advanced scheduling and tasks. When you're finished with this course, you'll have the skills needed to use Outlook on a deeper level (and continue preparation for the Microsoft Office exams).
<b>Outlook 365 Pro</b>	14	58	In this course, Outlook 365 Pro, you will take your Outlook knowledge to the ultimate level. First, you will learn how to manage multiple e-mail accounts. Next, you'll learn advanced search operations, an essential aspect of working with e-mail. Finally, you'll learn advanced mail management features like working with Junk E-mail, using Rules and delegating access to your mailbox. When you're finished with this course, you will have the skills needed to successfully use e-mail in any business environment (and complete preparation for the Microsoft Office exams).
<b>OneNote 365</b>	25	73	In this course, OneNote 365, you will learn how to use OneNote 365 to create online notebooks. First, you'll look at creating, managing and sharing notebooks. Then, you'll learn how to use formatting and how to find notes. Finally, you'll explore how to insert different types of content.
<b>Access 365 Essentials</b>	38	97	In this course, Access 365 Essentials, you will learn foundational knowledge of the Access interface and settings. First, you will learn how to navigate your way around the Access interface. Next, you will learn the basics of working with databases and tables. From there you'll move into working with and sorting records, working with filters and forms, queries and reporting. And we'll finish up with an understanding of database objects. When you're finished with this course, you will have the skills needed to begin basic database development.
<b>Access 365 Power Users</b>	52	122	In this course, Access 365 Power Users, you will take your Access knowledge to the next level. First, you will continue your understanding of working with databases and tables. Then you'll begin learning about data types and learn how to create and manage fields. Finally, you will learn more about creating and managing queries, forms and reports. When you're finished with this course, you will have the skills needed to expand your database development.
<b>Access 365 Pro</b>	54	170	In this course, Access 365 Pro, you will take your Access knowledge to the ultimate level. First you will dive deeper into working with external data sources. Then you will learn more about key fields and relationships. Next, we explore working with controls and formatting on forms and reports. Then optimizing data entry, working with calculated fields in queries and building advanced queries. Finally, you will learn about managing databases. When you're finished with this course, you will have the skills needed to fully develop a professional database (and complete preparation for the Microsoft Office exams).

📖 Total Number of Lessons: 600

Course Title	Number of Lessons	Course Length	Course Description
<b>PowerPoint 2021 Essentials</b>	45	184	In this course, PowerPoint 2021 Essentials, you will learn foundational knowledge of the PowerPoint interface and settings. First, you will learn how to navigate through a presentation using the Ribbon and Backstage View. Next, you will discover how to create presentations and work with slides, add text and use pictures. Finally, you will prepare to run a presentation. When you're finished with this course, you will have the skills needed to begin creating your own professional slide presentations (and begin preparation for the Microsoft Office exams).
<b>PowerPoint 2021 Power Users</b>	47	199	In this course, PowerPoint 2021 Power Users, you will take your PowerPoint knowledge to the next level. First, you will learn how to work with text, shapes, images and objects. Next, you will learn how to insert and format tables and charts. Finally, you will learn about printing presentations, creating custom slide shows and animations. When you're finished with this course, you will have the skills needed to create more advanced presentations (and continue preparation for the Microsoft Office exams).
<b>PowerPoint 2021 Pro</b>	37	184	In this course, PowerPoint 2021 Pro, you will take your PowerPoint knowledge to the ultimate level. First, you will learn how to work with document outlines and use morph transitions. Next, you will learn how to work with slide masters, SmartArt graphics and media. Finally, you will learn how to combine presentations, inspect and review a presentation and deliver your presentation to an audience. When you're finished with this course, you will have the skills needed to create, polish and deliver professional presentations (and complete preparation for the Microsoft Office exams).
<b>Outlook 2021 Essentials</b>	54	167	In this course, Outlook 2021 Essentials, you will learn foundational knowledge of the Outlook interface and settings. First, you will learn how to navigate the Outlook interface. Then you'll learn how to create, format, organize and manage messages. Finally, you'll learn how to create appointments, meetings, events, tasks, and notes. When you're finished with this course, you will have the skills needed to begin using e-mail in a business environment (and begin preparation for the Microsoft Office exams).
<b>Outlook 2021 Power Users</b>	22	72	In this course, Outlook 2021 Power Users, you will take your Outlook knowledge to the next level. First, you'll learn how to manage and organize calendars and contacts. You'll also learn how to print Outlook items, customize Outlook settings and perform advanced scheduling and tasks. When you're finished with this course, you'll have the skills needed to use Outlook on a deeper level (and continue preparation for the Microsoft Office exams).
<b>Outlook 2021 Pro</b>	14	60	In this course, Outlook 2021 Pro, you will take your Outlook knowledge to the ultimate level. First, you will learn how to manage multiple e-mail accounts. Next, you'll learn advanced search operations, an essential aspect of working with e-mail. Finally, you'll learn advanced mail management features like working with Junk E-mail, using Rules and delegating access to your mailbox. When you're finished with this course, you will have the skills needed to successfully use e-mail in any business environment (and complete preparation for the Microsoft Office exams).

# Office 2019 Core

🕒 Total Time: 33+ hours

📖 Total Number of Lessons: 537

Course Title	Number of Lessons	Course Length	Course Description
<b>What's New in Office 2021</b>	23	96	In this course, What's New in Office 2021, you will learn about new features and feature enhancements in the Office 2021.
<b>What's New in Office Pro Plus</b>	30	99	In this course, What's New in Office ProPlus, you will learn about new features and feature enhancements in the Office ProPlus Suite (beyond what is already in Office 2019). The focus will be on the Office 365 subscription-based versions of Word, Excel, PowerPoint and Outlook.
<b>What's New in Office 2019</b>	15	95	In this course, What's New in Office 2019, you will learn about new features and feature enhancements in the Office 2019 suite. First, you will learn the difference between Office 2019 and other flavors of Office. Next, you will discover all the new features that span across multiple applications. Finally, you will learn application specific feature enhancements and new features for the entire Office 2019 suite.
<b>Word 2019 Essentials</b>	30	168	In this course, Word 2019 Essentials, you will learn foundational knowledge of the Word interface and settings. First, you will learn how to create and navigate through a document. Next, you will discover how to work with text, tables and lists. Finally, you will explore how to insert and manipulate graphic elements. When you're finished with this course, you will have the skills needed to begin creating your own professional documents (and begin preparation for the Microsoft Office exams).
<b>Word 2019 Power Users</b>	30	93	In this course, Word 2019 Power Users, you will take your Word knowledge to the next level. First, you will learn how to customize options and views for documents. Next, you will learn about document collaboration, accessibility and the management of document changes. Finally, you will learn about reference markers and advanced references. When you're finished with this course, you will have the skills needed to take your professional documents to the next level (and continue preparation for the Microsoft Office exams).
<b>Word 2019 Pro</b>	30	120	In this course, Word 2019 Pro, you will take your Word knowledge to the ultimate level. First, you will learn how to work with fields, create styles and custom style sets and themes. Next, you will learn more about managing documents and templates and automating Word elements and tasks. Finally, you will learn about advanced editing and formatting. When you're finished with this course, you will have the skills needed to feel fully complete in creating your own professional documents (and complete the preparation for the Microsoft Office exams).
<b>Excel 2019/365 Essentials</b>	57	154	In this course, Excel 2019/365 Essentials, you will learn foundational knowledge of the Excel interface and settings. First, you will learn how to work with the Ribbon interface and Backstage View. Next, you will discover how to work with worksheets, cells, columns and rows. Finally, you will explore how to use formatting and Auto options, as well as how to save your file. When you're finished with this course, you will have the skills needed to begin creating your own professional spreadsheets (and begin preparation for the Microsoft Office exams).

# Office 2019 Core

🕒 Total Time: 33+ hours

📖 Total Number of Lessons: 537

Course Title	Number of Lessons	Course Length	Course Description
<b>Excel 2019/365 Power Users</b>	62	246	In this course, Excel 2019/365 Power Users, you will take your Excel knowledge to the next level. First, you will learn how to format cells with borders, styles, shapes and more. Next, you'll learn how to work with workbooks, worksheets and data. Then you'll learn more about printing workbooks (in whole or parts). Finally, you'll learn about tables and a few advanced functions. When you're finished with this course, you will have the skills to format and manage more advanced spreadsheets (and continue preparation for the Microsoft Office exams).
<b>Excel 2019/365 Pro</b>	86	349	In this course, Excel 2019/365 Pro, you will take your Excel knowledge to the ultimate level. First, you will learn how to format and work with data. Then you'll learn about queries, text/logical/statistical and other functions. Finally, you'll learn conditional formatting, charts, pivot tables, macros and form controls. When you're finished with this course, you will have the skills needed to feel fully complete in creating professional spreadsheets (and complete preparation for the Office exams).
<b>PowerPoint 2019/365 Essentials</b>	45	145	In this course, PowerPoint 2019/365 Essentials, you will learn foundational knowledge of the PowerPoint interface and settings. First, you will learn how to navigate through a presentation using the Ribbon and Backstage View. Next, you will discover how to create presentations and work with slides, add text and use pictures. Finally, you will prepare to run a presentation. When you're finished with this course, you will have the skills needed to begin creating your own professional slide presentations (and begin preparation for the Microsoft Office exams).
<b>PowerPoint 2019 Power Users</b>	43	159	In this course, PowerPoint 2019 Power Users, you will take your PowerPoint knowledge to the next level. First, you will learn how to work with text, shapes, images and objects. Next, you will learn how to insert and format tables and charts. Finally, you will learn about printing presentations, creating custom slide shows and animations. When you're finished with this course, you will have the skills needed to create more advanced presentations (and continue preparation for the Microsoft Office exams).
<b>PowerPoint 2019 Pro</b>	34	149	In this course, PowerPoint 2019 Pro, you will take your PowerPoint knowledge to the ultimate level. First, you will learn how to work with document outlines and use morph transitions. Next, you will learn how to work with slide masters, SmartArt graphics and media. Finally, you will learn how to combine presentations, inspect and review a presentation and deliver your presentation to an audience. When you're finished with this course, you will have the skills needed to create, polish and deliver professional presentations (and complete preparation for the Microsoft Office exams).
<b>Outlook 2019 Essentials</b>	35	114	In this course, Outlook 2019 Essentials, you will learn foundational knowledge of the Outlook interface and settings. First, you will learn how to navigate the Outlook interface. Then you'll learn how to create, format, organize and manage messages. Finally, you'll learn how to create appointments, meetings, events, tasks and notes. When you're finished with this course, you will have the skills needed to begin using email in a business environment (and begin preparation for the Microsoft Office exams).
<b>Outlook 2019 Power Users</b>	26	76	In this course, Outlook 2019 Power Users, you will take your Outlook knowledge to the next level. First, you'll learn how to create and manage contacts and contact groups. You'll also learn how to print Outlook items, customize Outlook settings and perform advanced scheduling and tasks. When you're finished with this course, you'll have the skills needed to use Outlook on a deeper level (and continue preparation for the Microsoft Office exams).

# Office 2019 Extended

🕒 Total Time: 14 hours

📖 Total Number of Lessons: 324

Course Title	Number of Lessons	Course Length	Course Description
<b>Outlook 2019 Pro</b>	14	53	In this course, Outlook 2019 Pro, you will take your Outlook knowledge to the ultimate level. First, you will learn how to manage multiple email accounts, including 2-step verification. Next, you'll learn advanced search operations, an essential aspect of working with email. Finally, you'll learn advanced mail management features like working with Junk Email, using Rules and delegating access to your mailbox. When you're finished with this course, you will have the skills needed to successfully use email in any business environment (and complete preparation for the Microsoft Office exams).
<b>Access 2019 Essentials</b>	65	106	In this course, Access 2019 Essentials, you will learn foundational knowledge of the Access interface and settings. First, you will learn how to navigate your way around the Access interface. Next, you will learn the basics of working with databases and tables. From there you'll move into working with and sorting records, working with filters and forms, queries and reporting. And we'll finish up with an understanding of database objects. When you're finished with this course, you will have the skills needed to begin basic database development (and begin preparation for the Microsoft Office exams).
<b>Access 2019 Power Users</b>	69	116	In this course, Access 2019 Power Users, you will take your Access knowledge to the next level. First, you will continue your understanding of working with databases and tables. Then you'll begin learning about data types and learn how to work with fields. Finally, you will learn more about creating and managing queries, forms and reports. When you're finished with this course, you will have the skills needed to expand your database development (and continue preparation for the Microsoft Office exams).
<b>Access 2019 Pro</b>	68	189	In this course, Access 2019 Pro, you will take your Access knowledge to the ultimate level. First you will dive deeper into database management and key fields. Then you will learn more about relationships, external sources and advanced field properties. Finally, you will explore techniques for controlling data entry, queries, form and report controls and more. When you're finished with this course, you will have the skills needed to fully develop a professional database (and complete preparation for the Microsoft Office exams).
<b>Publisher 2019</b>	34	81	In this course, Publisher 2019, you'll learn how to use Microsoft's solution for publishing professional documentation (online or in-print). First, you will go through a quick tour of Publisher and help get your bearings. Then, you will learn different editing tips and tricks to fully utilize Publisher 2019. Finally, you will learn how to do a final check and edit proof before sharing your completed publication.
<b>OneNote for Windows</b>	25	62	In this course, OneNote for Windows, you will learn how to use the downloadable OneNote app for creating online notebooks. First, you'll look at creating, managing and sharing notebooks. Then, you'll learn how to use formatting and how to find notes. Finally, you'll explore how to insert content.
<b>Visio 2019 Essentials</b>	37	117	In this course, Visio 2019 Essentials, you will first learn the basics of creating visual diagrams, including flowcharts, process maps, network diagrams, organization charts, and more. Then you will become familiar with shapes, stencils, templates, connectors, containers, callouts, embellishments, and working with text. Finally, you will learn best practices for printing.
<b>Visio 2019 Power Users</b>	26	168	In this course, Visio 2019 Power Users, you will take your Visio knowledge to the next level. First, you'll learn how to work with shapes and shape data. Then you'll move into chart types and diagrams. Finally, you will be shown advanced Visio techniques.

# Windows 11

🕒 Total Time: 15 1/2 hours  
📖 Total Number of Lessons: 174

Course Title	Number of Lessons	Course Length	Course Description
<b>What's New in Windows 11</b>	14	62	In this course, What's New in Windows 11, we take you on a visual walking tour of the new look, feel and features of Windows 11. We spend time working with widgets, virtual desktops and more.
<b>Windows 11 Foundations</b>	21	138	In this course, Windows 11 Foundations, we will help you learn your way around Microsoft's latest operating system. Learn how to log in and out of the system. Learn how to navigate around the Start screen, how to work with apps and how to connect to Wi-Fi, all in one course.
<b>Windows 11 Essentials</b>	21	151	In this course, Windows 11 Essentials, we will focus on important aspects of Windows 11 features and functionality including the File Explorer, built-in Windows Apps (such as Calendar, Mail, Photos, Teams), tablet tools, keyboard shortcuts and more.
<b>Windows 11 Power Users</b>	22	111	In this course, Windows 11 Power Users, we dive deeper into the world of Windows 11 with a focus on multi-factor login options and biometrics, Control Panel settings, remote connectivity, and more.
<b>Windows 11 Pro</b>	43	227	In this course, Windows 11 Pro, we cover topics that desktop administrators and next-level power users require. First, we will review some basic installation and configuration tasks. We will dive into the Start Menu and Taskbar along with interface and feature options. Then we will look at settings for apps, storage and more. We will review basic built-in security features (including virus and threat protection, Firewall and BitLocker). Then you will learn about administration tools like Task Manager, Event Viewer, Computer Management, Virtualization and more.
<b>Windows 365 Cloud PC</b>	6	20	In this course, Windows 365 Cloud PC, we explore the value of Windows 365 and walk through accessing your cloud PC from both a browser and through an app called Remote Desktop.
<b>Microsoft Edge</b>	26	127	In this course, Microsoft Edge, built in Windows 11, you will learn how to work with the latest version of the Microsoft Edge browser in Windows 11. First, you will learn the basics of using the Edge browser. Then you will learn how to manage your profile and privacy settings. Finally, you'll learn about browsing features.
<b>Windows 11 Accessibility</b>	21	100	In this course, Windows 11 Accessibility, we explore the various features build into the operating system to empower every person to discover and do the things they love. These features include vision (like Narrator), hearing (live captions), mobility (voice access and eye tracking), and neurodiversity and learning features (immersive reader and focus sessions).

# Windows 10

🕒 Total Time: 13+ hours  
📖 Total Number of Lessons: 224

Course Title	Number of Lessons	Course Length	Course Description
<b>Windows Accessibility Features</b>	26	55	In this course, Windows Accessibility Features, we will walk you through Windows 10, Office applications and Office 365 accessibility features. We believe accessibility is NON-OPTIONAL and neither is this course.
<b>Windows 10 New Features</b>	14	52	In this course, Windows 10 New Features, you will learn about the latest user interface changes and newest features delivered with the release of Windows 10.
<b>Windows 10 Foundations</b>	30	103	In this course, Windows 10 Foundations, you will learn all about the basic operations, functions, and features of Windows 10. You'll learn about sign-in options, how to work with the Start Menu and Taskbar, using the Action Center and Personalization settings, and the basics of Windows 10 apps.
<b>Windows 10 Essentials</b>	40	155	In this course, Windows 10 Essentials, you will learn how to Search, use Cortana and work with the Task View. Then you will learn how to work with must-have apps (Mail, Calendar, People, and Photos). Then you'll learn about a bevy of different popular Windows 10 apps for gaming, entertainment and more.
<b>Windows 10 Power Users</b>	35	132	In this course, Windows 10 Power Users, you will gain the ability to take your Windows OS to the next level of end-user interaction. You will learn how to configure OS settings (display, sound, battery, storage and more), print options, security settings and much more.
<b>Windows 10 Administration</b>	45	190	In this course, Windows 10 Administration, we cover topics that desktop administrators and next-level power users require. First, you will learn about the built-in security features (including Defender, Firewall and BitLocker). Then you will learn about Task Manager, admin-focused settings and administration tools (like PowerShell), Computer Management, Virtualization and more.
<b>Windows 10 Update v2004</b>	12	30	In this course, Windows 10 Update 2004, you will learn about the latest features released by Microsoft (May 28th, 2020). We will walk you through every aspect of the operating system to ensure you're up to speed on what is new.
<b>Windows 10 20H2 Update</b>	8	28	In this course, Windows 10 20H2 Update, we're going to explore the new features in Windows 10 that have been released as of October 2020.
<b>Microsoft Surface</b>	14	56	In this course, Microsoft Surface, you will get an overview of the Microsoft Surface product line. You will learn some of the Windows 10 features as they relate to the Microsoft Surface.

# Office 2016 Core

🕒 Total Time: 22 hours

📖 Total Number of Lessons: 355

Course Title	Number of Lessons	Course Length	Course Description
<b>What's New in Office 2016</b>	14	96	In this course, What's New in Office 2016, get up to speed fast with Office 2016. This course covers all the new features in Word, Excel, PowerPoint, OneNote, Outlook, Access, Visio, Project, Publisher, Skype for Business, Outlook on the Web, Delve, and Sway.
<b>Word 2016 Essentials</b>	30	93	In this course, Word 2016 Essentials, you will learn how to get started in Word by exploring the toolbar, ribbon, and changes from previous versions. Next you will learn about all the different things you can do when working with a document in Word 2016. Finally, this course will teach you important information about basic formatting and working with text and paragraphs to create the perfect finished document.
<b>Word 2016 Power Users</b>	35	144	In this course, Word 2016 Power Users, you will go beyond the basics. First, you'll learn about advanced formatting options before customizing and editing configuration settings. Next, you will learn power user tools in Word. Finally, you'll move onto what makes your Word experience pop... the art, pictures, tables, symbols, and other advanced elements.
<b>Excel 2016 Essentials</b>	50	123	In this course, Excel 2016 Essentials, learn the fundamentals of using and creating Excel spreadsheets, including navigating the Ribbon interface, working with the Backstage View, basic understanding of worksheets and spreadsheet data entry 101.
<b>Excel 2016 Power Users</b>	45	200	In this course, Excel 2016 Power Users, you will go beyond the basics to the next level. Business professionals will learn how to advance their Excel 2016 skills by learning conditional formatting, functions, tables, graphics, advanced printing and more.
<b>Excel 2016 Pro</b>	55	218	In this course, Excel 2016 Pro, learn the most efficient ways of viewing and manipulating data in Excel. You'll learn about PivotTables, protection settings, charts, working with data and functions and much more.
<b>PowerPoint 2016</b>	50	237	In this course, PowerPoint 2016, you will learn how to create great presentations. First, you will learn how to set up and create your PowerPoint presentation. Next, you'll learn all about features and functions you can integrate into the presentation for a rich and dynamic experience. Finally, you'll learn about the different ways to present, publish, and share a finished PowerPoint presentation.
<b>Outlook 2016</b>	76	207	In this course, Outlook 2016, you will learn how to work with Microsoft's email application solution. You'll become familiar with the layout of the Outlook environment, learn best practices for working with and managing email, and how to use the calendar, contacts, and tasks.

# Office 2016 Extended

🕒 Total Time: 15 hours

📖 Total Number of Lessons: 233

Course Title	Number of Lessons	Course Length	Course Description
<b>Access 2016</b>	75	263	In this course, Access 2016, you will learn how to create professional database using Access. First you will start learning through a brief introduction to Access 2016. Then you will learn how to create tables, fields, queries, and form building. This course will teach you how to create browser-based databases with scalable and usable data.
<b>Publisher 2016</b>	19	63	In this course, Publisher 2016, you will learn how to create professional looking documents in Publisher. First, you will do a quick tour of Publisher and help get your projects organized. Then, you will cover different editing tips and tricks to fully utilize Publisher 2016. Finally, you will do a final check and edit before publishing your project.
<b>OneNote 2016</b>	16	69	In this course, OneNote 2016, you will learn how to create digital notes for your digital notebook application. First, you'll look at creating and adding to a notebook. Then, you'll look at writing notes, sending messages, and merging notes and sections. Finally, you'll explore how to tag, track changes, and share your notebooks with others on your team.
<b>Visio 2016</b>	50	171	In this course, Visio 2016, you will learn about Microsoft's application for creating visual diagrams, including flowcharts, process maps, network diagrams, organization charts, and more. You'll become familiar with shapes, stencils, templates, connectors, glue, themes, styles, containers, callouts, layers, embellishments, and working with text. You'll also learn best practices for printing and sharing, plus tips for creating diagrams and charts.
<b>Project 2016</b>	50	266	In this course, Project 2016, you will learn how to manage business projects from beginning to end. First, you'll learn how to create a plan, work with tasks, and set deadlines to make management easier down the road. Next, you'll work with resources and the resource calendar, and you'll also cover managing your budget and timeline. Finally, you'll explore how to find and view information, how to create reports that you can present, and learn about master projects.
<b>SharePoint 2016 (On-Premises) Essentials</b>	23	103	In this course, SharePoint Server 2016 (On-Premises) Essentials, you will learn ways to improve collaboration within your organization. Features like document libraries, workflow options, and more are key pieces to a SharePoint site. There is much to learn for end-users and this course will help them learn how to work with sites, lists and libraries.

# Office 2013

🕒 Total Time: 39 hours

📖 Total Number of Lessons: 863

Course Title	Number of Lessons	Course Length	Course Description
<b>What's New in Office 2013</b>	50	187	In this course, What's New in Office 2013, get up to speed and learn what's new in Office 2013. This course covers all the features in Word, Excel, PowerPoint and Outlook.
<b>Word 2013</b>	100	213	In this course, Word 2013, learn about the most popular features packed into Word 2013 to create better looking, more flexible, and shareable documents. The instructor covers some basics as well as some often-overlooked Word 2013 features and shortcuts that will satisfy beginners to the more intermediate office workers.
<b>Excel 2013</b>	100	203	In this course, Excel 2013, you will learn to navigate in Excel using both the mouse and keyboard shortcuts. Then the instructor dives into popular topics including writing formulas and expressions, popular functions, sorting and filtering, conditional formatting, PivotTables and PivotCharts, and more.
<b>Excel 2013 Pro</b>	50	155	In this course, Excel 2013 Pro, learn the most efficient ways of viewing and manipulating data in Excel 2013. You'll learn about PivotTables, protection settings, charts, working with data and functions and much more.
